Our team wants to make sure that your child and his/her family will receive the best possible care and services in a clean and safe environment. To do that, we must count on your cooperation. This guide will provide you with all the information needed for your stay and to ensure the comfort, wellbeing and safety of everyone.

**Care Team Partners**

As parents, you have an important role to play with your child, as you are key partners to our team. We encourage you to get involved with the care team as soon as you feel comfortable doing so.

**Introducing the Care Team**

To make it easy for you to identify the different CHU Sainte-Justine staff, each member wears an ID card. They also wear uniforms of different colours to help distinguish the different members.

Here are some of the people you will meet during your stay. The colour of the uniform helps to identify their function.
Child Attendant

Your presence in your child’s room is reassuring. That’s why we supply a sofa bed so you can be with your child at any time. However, only one parent (or other responsible person) may sleep in the room at night. Please ensure that the sofa bed is put away by 8 a.m. and the bedding is stored in the cupboard.

For safety reasons and to allow our staff quick access to your child in an emergency, sleeping with the child is not permitted, either in the bed or the sofa bed. It is also prohibited to move the sofa bed closer to your child’s bed.

We remind you that you can, at all times, leave the hospital to rest or sleep. You have the option of having a responsible person 18 years or older replace you and stay with your child. During your absence, the staff will increase their presence with your child. Rest assured that we will contact you if necessary.

Visits

Visiting hours are determined based on patients’ care needs and their comfort.

- Parents are always admitted. Note that only one parent may sleep in the room at a time.

- No more than two visitors at a time, including the parents. However, depending on the child’s clinical condition, some stricter rules may apply. Visiting hours may be suspended or limited under certain circumstances.

- Visitors must remain in the room or public area at all times.

- Regular visiting hours are from 2 p.m. to 8 p.m. daily.
Visitors with signs or symptoms of infection, such as fever, cough, diarrhea, vomiting or rash, will not be admitted. For visitors 12 years old and under, please contact the assistant head nurse beforehand. They may be denied access for a variety of reasons. A questionnaire about their current health will be completed upon arrival. If your child is in isolation, certain restrictions apply. Visitors must leave the patient's room by the end of visiting hours, or when the hospital staff requests it, or if your child's treatment plan requires it, based on his or her particular condition.

**Sound advice**

If you have signs or symptoms of an infection, such as fever, cough, diarrhea, vomiting or a rash, please stay home and have someone else be with your child.

**Isolation Measures**

If your child's situation requires isolation measures, it is essential that you follow these rules at all times. Children under 12 years of age are not admitted to visit a patient who is in an infection isolation room. Also, before visiting a child in preventive isolation, you must contact the care team. Should you have any questions regarding these specific measures, please do not hesitate to consult the nursing staff.

**Sound advice**

Here's some sound advice to help prevent infections: Wash your hands when entering and leaving the room, before providing care, before helping the patient eat and after helping the patient use the washroom, as this is the most effective way to prevent the transmission of infections.
Your Child’s Safety

Patient safety is a shared responsibility between the patient, the family and professionals. Everyone has a role to play! Your participation will ensure optimal quality and safety of care. Here are some examples of involvement:

You need to:

- Practise and encourage hand hygiene.
- Make sure your child wears their identification bracelet at all times.
- Provide staff with information that will help them better care for your child.
- Report to staff anything that seems abnormal.
- Make sure that the sides of your child’s bed are always fully raised, even if you’re close him or her.
- Do not place the child on the sofa bed.

In addition:

- You may be asked to keep open the blinds on the door or windows facing the corridor, to permit continuous monitoring of your child.
- In order to facilitate emergency care and interventions, your child’s bed must be accessible at all times. The room must therefore not be cluttered. It is important to store all your child’s personal belongings in the drawers and closet, and not near the bed.
- To prevent clutter in the room during extended stays, please limit the number of toys to three or four, and rotate toys and personal belongings. You may also borrow toys from the Toy-lending Library (Joujouthèque) run by a team of volunteers, located on the 9th floor of Block 1. It is open from 8 a.m. to 5:30 p.m., Monday to Friday.
Medical Rounds and Examinations

LAs CHU Sainte-Justine is a university hospital centre, the care administered to your child is the shared responsibility of his/her doctor, working with a team of residents, externs, medical consultants and specialized professionals.

**Medical rounds** take place every day at a time that cannot be determined in advance. Medical examinations can also take place at any time of the day, without an appointment.

If you have any concerns or questions about the treatment your child is receiving, you can talk to your child’s nurse. Please note that health information can only be discussed with parents or with patients 14 years of age or older. Therefore, the medical round is strictly reserved for parents.

---

**Sound advice**

Remember to write down your questions along the way to make sure nothing gets forgotten.

---

Discharge

Your doctor will tell you when your child can leave the hospital. The care team will answer all your questions about the treatment and care your child will need at home.

Before you leave, make sure you haven’t forgotten anything in the drawers and closet. We ask parents to leave the room within two hours of being notified that the child’s discharge has been signed, so that we can make it available for another sick child.
Living Areas

The Room
You may want to personalize your child’s room by hanging photos, posters or knick knacks. You may do so by mounting them with stickers or on magnetic whiteboards. It is not permitted to use adhesive paper or velcro, which would damage the paint on the walls. For children undergoing isolation measures, please contact the care team.

Personal Effects
- During the stay, your child will need some personal effects: toothbrush, toothpaste, comb or hairbrush, socks and slippers, as well as comforting things such as their bedspread, favourite toy, etc.
- If your child wears diapers, you must provide them. It is important to keep them in a visible place in the room so that the team members can easily find them in your absence.
- Did you forget something? You can buy all kinds of items, such as toiletries, tissues, diapers, medications and other things at the Jean Coutu Pharmacy, located on Level A of Block 1. The opening hours are displayed at the store entrance.

Sound advice

Only bring the bare minimum to the hospital. Do not leave any valuables in the room when you go outside (wallet, tablet, iPod, cell phone or other items). The hospital declines all responsibility for any personal effects in the event of loss, breakage or disappearance.
Non-violence

Respect is the foundation of harmonious social relations. Respect must be reflected in the actions, attitudes, words and behaviours of all people. CHU Sainte-Justine upholds a non-violence policy stipulating that all verbal or physical violence is strictly prohibited and will in no circumstances be tolerated. We need to ensure that the work environment and care we provide are free of all forms of violence and are based on the respect, dignity and physical and psychological integrity of individuals.

We are aware of the emotional burden that certain difficult situations can bring. However, in the event of any violence against staff or other members of our clientele, we will be obligated to take measures to avoid any recurrence. Resources are available to help you if needed.

Flowers, Plants and Balloons

To prevent allergic reactions and infections, flowers, plants and latex balloons are not permitted. Only metallic balloons are allowed.

Bedding for Sofa Beds

Sheets and pillows are available at the unit where your child is hospitalized. The staff there will tell you where you can get these items in the unit. After use, please place them in the baskets intended for this purpose.

Washrooms and Hygiene

To prevent infection and protect your child, the bathroom in their room should only be used by your child. Parents and visitors must use the washrooms located in the family areas.
Shower

Parents who wish to take a shower can use the showers located in the family area. To help maintain cleanliness, please clean, using the disinfecting wipes provided, the shower and sink after use.

- You must bring your own toiletries (soap, shampoo, tooth brush, tooth paste, etc.).
- Towels and facecloths are available at the unit where your child is hospitalized. After use, please place them in the baskets intended for this purpose. A damp towel left in the room is a source of bacteria.

Sound advice

As in all public showers, the wearing of sandals is recommended.

Dress Code

Out of respect for children, staff and other parents, please wear appropriate clothing at all times, including during rest and sleep periods.

Phone

To call a patient at CHU Sainte-Justine, dial 514-345-4708 and give the patient’s room number or last name. We will take note of your contact details and pass it on to the patient or their parents. No calls are transferred directly to the room.

Use of the room telephone is strictly reserved for nursing staff. However, you will be allowed to use it to order your child’s meals. Cell phones may only be used in the common areas of the family zone. We prohibit the use of cell phones at the child’s bedside, in order to maintain a quiet environment. Your device must be in vibration mode at all times.

A telephone is at your disposal in the family room. To use it, press 9, then dial the desired number.
Wi-Fi Access
You have access to the hospital's Wi-Fi network, which allows you to use the Internet responsibly and safely. This network is independent from the hospital's professional and medical Wi-Fi network. It does not provide access to any professional and confidential data in the CHU Sainte-Justine network.

To access the Wi-Fi network:
- Select "CHU-Public" from the list of available networks on your smartphone or tablet.
- A home page will open in your browser: follow the daily agreement and terms of use procedure.

For any questions or assistance, call 1 888 ihotel5.

Photos and Videos
It is prohibited to photograph, record or video other patients or their families, or staff members.

If you wish to photograph or video any staff members, you must ask their permission first.

It is also prohibited to post photos or videos of employees, other patients and their families on the Internet and social media such as Facebook, Twitter, Instagram, Snapchat, YouTube and others.

Alcohol, Illegal Substances and Dangerous Objects
The possession and use of alcohol, drugs and dangerous objects is strictly forbidden.
Common Areas

Various facilities are available to meet the needs of daily life: showers, kitchenette with dining area and lounge with television. For life to be pleasant and harmonious in the unit, everyone must be respectful of one another in all circumstances.

So, we ask you to:

- avoid making excessive noise (television, telephone, music, etc.);
- keep common areas clean and tidy;
- respect the privacy and private life of each family;
- not eat in hallways and common areas. Instead, use your unit’s kitchen, which is reserved for the parents of hospitalized children; Use it respectfully and be sure to clean used areas and items;
- help keep in good condition the common areas, equipment and furniture placed at your disposal.

Electrical Devices

In areas reserved for patients, treatments and families, use of the following items is prohibited for safety reasons:

- Electrical appliances (kettles, toasters ovens, air conditioners, refrigerator, etc.)
- Televisions
- Plug-in radios
- Christmas-type lights
- Extension cords

The Family Lounge

The family lounge is a tranquil, comfortably-furnished space for rest, quiet moments or entertainment. However, it is not permitted to sleep in the lounge so that families can access it at all times. In addition, only two people from the same family may occupy the lounge at the same time.
The Family Kitchenette

A refrigerator and a microwave are available in the kitchenette on that floor or in the family room. Remember to indicate your child’s name and the storage date on food containers. Upon discharge, you must collect the food stored in the kitchenettes. We inspect the content of the refrigerators every Friday. All food and containers stored for more than 7 days (or with no date) and without a name will be put in the trash without notice.

Sound advice

Bring pre-identified utensils and dishes, as these are not provided.

Meals

Délipapilles is a personalized meal delivery service offered to all CHU Sainte-Justine patients, parents and visitors.

Service for patients

Your child can now choose a meal or snack from a menu at a time that suits them and have it delivered to their room between 6:30 a.m. and 7 p.m. If your child is unable to make the choice themselves, you may do it for them. Please consult the menus for more information.

Service for parents and visitors

Room service is also available to parents between 6:30 a.m. and 7 p.m. Please consult the posters about this service, to learn how it works.

You may eat in the room with your child. However, for reasons of hygiene, it is strictly prohibited to store food there.

You may have a drink there, as long as you use a hermetically sealed cup or thermos with a cap. Please keep this container in the area of the sofa bed, away from the child and medical equipment, to avoid accidents.
Drop-in Daycare

CHU Sainte-Justine offers a drop-in daycare service for siblings of children who are hospitalized or being seen as outpatients. The children are looked after by an educator and volunteers. This service is available Monday to Friday, from 8 a.m. to 12 p.m. and from 1 p.m. to 4 p.m. The daycare is located on Level C of Block 8 (Local C.8.22). You can contact the drop-in daycare at 514 345-4931, ext. 5372.

Restaurants and Food Services

Cafeteria

The main cafeteria is located on Level A, Block 9. The main cafeteria is located on Level A, Block 9. It is open for lunch from 11 a.m. to 2 p.m., Monday to Friday.
Animals are strictly forbidden inside the hospital, with the exception of guide or service dogs. However, it should be noted that no assistance dogs are allowed in the intensive care unit.

**Animals and Guide Dogs**

Animals are strictly forbidden inside the hospital, with the exception of guide or service dogs. However, it should be noted that no assistance dogs are allowed in the intensive care unit.

**Le bistro**

Le Bistro is a point of service for Délipapilles, serving the clients and staff of Blocks 11 and 17. It is located in the Jardin 4 saisons of the Atrium, Block 17 and is open every day from 7 a.m. to 2 p.m. There you will find:

- **Le café Van Houtte**: coffee, tea, pastries
- **La Marmite**: a variety of soups
- **Take-out**: sushi, sandwiches, salads, fruit and vegetable cups, smoothies and snacks

**Délipapilles**

You can get meals and snacks at Délipapilles. It is located on Level A, Block 1, near Elevators 1 and 2. Délipapilles offers full meals 7 days a week, from 6:30 a.m. to 8 p.m.

**Vending Machines**

You’ll find vending machines offering a number of items on Level A, Block 2. Also, snacks are available in vending machines at various other locations, including the main entrance lobby, on the 1st floor of Block 2, on Level B of Block 1.

**ATM**

You have access to a Desjardins ATM on Level A, Block 1, near Délipapilles.

**Animals and Guide Dogs**

Animals are strictly forbidden inside the hospital, with the exception of guide or service dogs. However, it should be noted that no assistance dogs are allowed in the intensive care unit.
Animals are strictly forbidden inside the hospital, with the exception of guide or service dogs. However, it should be noted that no assistance dogs are allowed in the intensive care unit.

Animals and Guide Dogs

ATM

You have access to a Desjardins ATM on Level A, Block 1, near Délipapilles.

Hôtellerie Chez Cachou

Hôtellerie Chez Cachou is located on the 5th floor of Block 8. It offers accommodations, based on availabilities and the priorities set by the hospital. The priorities are:

- Breastfeeding mothers whose babies are hospitalized in the nursery or the neonatal unit;
- Patients receiving treatment at the day centre, without hospitalization, accompanied by a parent;
- Mothers whose babies are hospitalized in the neonatal unit.

For more information, please call 514-345-4898 from 7:30 a.m. to 3:30 p.m., Monday to Friday. Evenings, nights or weekends, call 514-345-4616.

Smoke-free Environment

CHU Sainte-Justine's policy on tobacco use is to promote good health and provide a healthy and safe healing environment for clients and staff.

It is prohibited for anyone to smoke or vape on any of the hospital's premises, including entrances, access paths, and outdoor and underground parking.

Temporary Accommodations for Families

Hôtellerie Chez Cachou

Hôtellerie Chez Cachou is located on the 5th floor of Block 8. It offers accommodations, based on availabilities and the priorities set by the hospital. The priorities are:

- Breastfeeding mothers whose babies are hospitalized in the nursery or the neonatal unit;
- Patients receiving treatment at the day centre, without hospitalization, accompanied by a parent;
- Mothers whose babies are hospitalized in the neonatal unit.

For more information, please call 514-345-4898 from 7:30 a.m. to 3:30 p.m., Monday to Friday. Evenings, nights or weekends, call 514-345-4616.
Ronald McDonald House

Ronald McDonald House is a family-type residence for families from remote areas (more than 55 km from Montreal).

For information or to make reservations, call 514 731-2871 from 8 a.m. to 8 p.m., Monday to Friday, and from 9 a.m. to 8 p.m., Saturday and Sunday.

Parking

The client parking lot is located on the west side of CHU Sainte-Justine and is accessible from Chemin Côte-Sainte-Catherine or Rue Decelles. Special rates are available to those who are visiting the hospital regularly: one-day, unlimited, weekly, family and monthly. For more information, speak to your health care unit, clinic or security personnel.

Parent Child Centre

The Parent Child Centre is located inside the library facilities, on the 5th floor of Block 9. It is open from 8 a.m. to 6 p.m., Monday to Thursday, and 8 a.m. to 4 p.m. Friday.

The Parent Child Centre is a place for parents and families to get information and documentation with complete peace of mind. The librarians can guide them to documentation that is available onsite or online. All books published by Éditions du CHU Sainte-Justine books may be consulted or purchased onsite.

The Parent Child Centre is located inside the library facilities, on the 5th floor of Block 9. It is open from 8 a.m. to 6 p.m., Monday to Thursday, and 8 a.m. to 4 p.m. Friday.

Spiritual Care

The spiritual care providers bring you support and comfort during your stay. They staff will be attentive to your spiritual needs based on your values and beliefs. To obtain their services, make a request to the caregiving staff.

A meditation room named Le Havre is available to you at all times. It is located on Level A, Block 1 (local A.1.10).
Local Complaints Commissioner

Your satisfaction is important to us. Your comments help us improve the quality of care and services. If you are dissatisfied with the care and services your child has received and if you feel that his or her rights have not been respected, we recommend that you first speak with the staff responsible for care and services. This often resolves the situation quickly. If after taking this step, you are still not satisfied, the Local Service Quality and Complaints Commissioner is there to deal with your complaint and promote service quality. Complaints can be made verbally or in writing. You can submit your complaint:

- In person: at the Office of Local Service Quality and Complaints Commissioner, located at Level A, Block 9 (local A.9.21)
- By phone: 514-345-4749
- By mail: Local Service Quality and Complaints Commissioner, CHU Sainte-Justine, Local A.9.21, 3175 Chemin de la Côte-Sainte-Catherine, Montreal QC H3T 1C5
- By email: commissaire.message.hsj@ssss.gouv.qc.ca

Users Committee

The Users Committee ensures that the rights of CHU Sainte-Justine users are respected. The Committee represents the children and their families, to improve the quality of the living conditions of users and to support them as needed.

You can contact the Committee at 514-345-4931, ext. 5902.
Finding Your Way in the Hospital

To help you find your way in the hospital, here is some useful information.

Understanding how rooms are numbered; e.g. Room 6.11.21:
- The first element (number or letter) designates the floor — 6th floor.
- The following digits correspond to the local number (three digits) or the room number (two digits) — Room 21.
- The second element indicates the block — Block 11.
Understanding how rooms are numbered; e.g. Room 6.11.21:
