universitaire mère-enfant

Université  
de Montréal

# Prominauris Correction

*Post surgery care*

**Dr. Louise Caouette-Laberge**

## Once dressing removed :

- Using a swabstick, apply Polysporin<sup>MD</sup> ointment on scars **once a day** until the stitches disappear.
- **During the night**, it is highly recommended to wear a lycra swimming cap (bathing cap) for **1 week**. You can also make a hood with an old pair of stockings to protect the ears.
- Sports activities are permitted if the child wear a safety helmet.
